

# Greetings

**Welcome to the homepage of HU-MATHS-IN**, the Hungarian Service Network for Mathematics in Industry and Innovations!

This network has been founded recently to provide a platform for Hungarian researchers working in the field of mathematics in industry and innovations. By the aims of the network, it provides visibility of the research groups and their achievements, makes collaborations within academia and between academia and industry easier and more efficient and promotes getting fundings for that aims, in particular within the framework of H2020.

To achieve these goals, HU-MATHS-IN shall be act as the Hungarian national network of EU-MATHS-IN.
